

The Quoustic Wound Therapy System™ is indicated for “for producing and delivering low frequency ultrasound used to promote wound healing via:

- ⊙ Selective and non-selective dissection and fragmentation of soft and/or hard tissue
- ⊙ Surgical, excisional or sharp-edge wound debridement (acute and chronic wounds, burns) for the removal of nonviable tissue including but not limited to diseased tissue, necrotic tissue, slough and eschar, fibrin, tissue exudates, bacteria and other matter
- ⊙ Site cleansing irrigation and lavage of wound tissue (acute and chronic wounds, burns, diseased or necrotic tissue)
- ⊙ Contact and/or non-contact maintenance debridement for the removal of debris, exudates, fragments, bacteria, slough, fibrin, excised or fragmented tissue, and other matter
- ⊙ Preparing the wound bed for graft or other subsequent procedures using contact and/or non-contact techniques to achieve wound debridement

It is prescribed for patient population of any age with one or more wounds and/or that may also exhibit Diabetes Mellitus (DM).¹

The reimbursement information provided by Arobella Medical, LLC. is gathered from third-party sources and is presented for illustrative purposes only. It does not guarantee coverage or reimbursement for services performed utilizing the Quoustic Wound Therapy System. Arobella has made every effort to ensure the completeness and accuracy of the information contained herein; however, no representations or warranties are made regarding the selection of codes for the use of Arobella’s products or the services in which the products may be used, or for compliance with any billing protocols or procedures, requirements, or prerequisites. As with all coverage claims, individual physicians and facilities are responsible for exercising their independent clinical judgment in selecting the codes that most accurately reflect the patient’s condition and the services provided to a patient. Healthcare providers are encouraged to contact the individual Medicare contractor, carrier, fiscal intermediary or other third-party payers, as needed.

2016 Medicare National Unadjusted Average Payment Rates³

CPT Code ²	DESCRIPTOR	Physician Payment		Facility Payment		
		Non-Facility (Office)	Facility	Hospital Outpatient APC	Hospital Outpatient	Amb Surgery Center
SURGICAL DEBRIDEMENT						
11000	Debridement of extensive eczematous or infected skin; up to 10% of body surface	\$58.35	\$31.07	0016	\$305.10	\$32.22
11001+	Debridement of extensive eczematous or infected skin; each additional 10% of the body surface (List separately in addition to code for primary procedure)	\$23.11	\$15.53	-	Bundled	Bundled
11042	Debridement; subcutaneous tissue (includes epidermis and dermis, if performed); first 20 sq cm or less	\$125.04	\$67.07	0016	\$305.10	\$126.13
11045+	Debridement; subcutaneous tissue (includes epidermis and dermis, if performed); each additional 20 sq cm, or part thereof (List separately in addition to code for primary procedure)	\$43.95	\$28.42	-	Bundled	Bundled
11043	Debridement; muscle and/or fascia (includes epidermis, dermis, and subcutaneous tissue, if performed); first 3 sq cm or less	\$245.91	\$169.37	0016	\$305.10	\$239.70
11046+	Debridement; muscle and/or fascia (includes epidermis, dermis, and subcutaneous tissue, if performed); each additional 20 sq cm, or part thereof (List separately in addition to code for primary procedure)	\$79.19	\$61.00	-	Bundled	Bundled
ACTIVE WOUND CARE MANAGEMENT						
97597	Debridement (e.g., high pressure water jet with/without suction, sharp selective debridement with scissors, scalpel and forceps), open wound, (eg, fibrin, devitalized epidermis and/or dermis, exudates, debris, biofilm), including topical application(s), wound assessment, use of a whirlpool, when performed and instruction(s) for ongoing care, per session; total wound(s) surface area; first 20 sq cm or less	\$80.33	\$25.01	0015	\$165.76	N / A
